

SMARTVUE

THE SAFE WAY TO BACK UP!

SmartVue is the simple solution to a high-end reversing camera rear view mirror. App-Tronics uses the same 600nit 5 inch captive display as in our higher end mirrors, ensuring a clear view while backing up.

SmartVue comes with a back up camera that will work in most cars and we also offer a wide range of vehicle specific cameras. The SmartVue also has inputs for our optional parking sensors that work on all of App-Tronics mirror product line. SmartVue is the clear choice when purchasing a safety backup system.
